

## **Open Access Policy**

The *Electronic Journal of Research in Educational Psychology* is an open access journal, publishing articles that have been submitted to a double-blind peer review process. We have adopted the following measures as part of our commitment to the open access movement:

1. EJREP offers unrestricted access to its publications in digital format, whether in Spanish or in English, from any part of the world, free of charge.
2. EJREP is indexed in multiple databases, with special attention to the DOAJ system.
3. Articles are published in digital format only, paper reprints are not produced.
4. Published articles are the property of EJREP, and may be downloaded in pdf format for printing. The pdf files are protected, allowing reading privileges but not copying.
